

# VINTEC

Elevate your wine experience  
with Vintec Wine Chillers.

1 Jul - 30 Sep 2024

**Designed for Wine Lovers,  
by Wine Lovers**

Born from a passion for wine and to meet the exacting standards of wine professionals, Vintec climate-controlled cellars are designed to recreate the perfect storage conditions found in only the best natural underground cellars.

## Vintec 5 Pillars of Wine Storage

Vintec wine cabinets ensure your wines are stored in the ideal cellaring conditions by respecting the 5 Pillars of Wine Storage.

### Stable Temperature

Our climate-control system maintains a very stable temperature thanks to variable speed compressors and double/ triple-glazed doors.

### High Humidity

Our wine cabinets ensure adequate humidity levels are maintained (50% or greater) to keep corks moist and wines in optimal condition.

### Dark Storage Area

Vintec cabinets protect wine from light damage by incorporating UV-resistant tinted and insulated glass doors, dark interiors and dimmed LED lights.

### No Vibrations

A vibration-proof environment is created using low-vibration compressors, rubber shock absorbers and vibration-absorbing wooden shelves.

### Quality Airflow

Our cabinets are equipped with an efficient air circulation system and a powerful air filter to ensure a constant, slow flow of filtered air throughout the cabinet.

**Perfect for storing both red and white wines with Multi-temperature**
